NO. 47 EXCHANGE PLACE,
NEW YORK.

ESPECIAL ATTENTION DEVOTED TO WESTERN BUSINESS.

STOUT, MILLS & TEMPLE,

Patentees and Manufacturers of the

American Turbine Water Wheel

French Burr-Millstones, Gearing, Shaft-
ing, Pulleys, &c. Full line of Flour
Mill Machinery and general
Mill Furnishings.

Also make a specialty of Rag Engines for Paper Mills, Wood or Iron Tubs,
Rag Cutters, Dusters, Pumps, &c.

The American Turbine, as recently improved, utilizes a higher average per-
centage of power than any wheel ever known, which justly entitles it to the
position claimed for it as the best Water Wheel in the market.

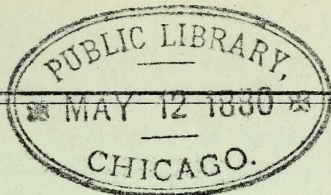

Plans and specifications furnished.

Special attention given to new process Flour Mills, and the most approved
Paper Mills.

Large illustrated Catalogue sent free. Address

STOUT, MILLS & TEMPLE,

DAYTON, OHIO.

COLORADO WOOL GROWERS' ASSOCIATION.—President, Joseph Kenyon, Canon City; Secretary, R. R. Wright, Denver.

In addition to the above, there are various county and town organizations, which are given in connection with the Directories of Towns in the following pages.

INDUSTRIES.

FARMING.—The farm product for the year 1876 is estimated to have been, in value, \$4,500,000.

• **LIVE STOCK.**—The State Auditor's books for 1876 show:

	Number.	Value.
Horses	38,650	\$1,823,932
Mules	3,752	249,213
Cattle	375,215	4,973,469
Sheep	424,977	810,243
Total value.....		<u>\$7,856,857</u>

MINING.—The estimated yield of gold and silver for the years 1875 and 1876, compared, is as follows:

Districts.	1875.	1876.
Gilpin	\$1,763,985 48	\$2,500,000
Clear Creek.....	1,988,699 55	1,750,000
Park.....	350,000 00	575,000
Boulder.....	767,000 00	900,000
Summit.....	142,000 00	150,000
Lake	120,940 00	75,000
San Juan	83,000 00	275,000
Fremont	342,000 00	150,000
Totals.....	<u>\$6,057,025 03</u>	<u>\$6,375,000</u>

The value of coal and other products, not given above, mined in 1876 is placed at \$950,000. This makes the total mineral product for 1876 \$7,325,000.

BUSINESS LAWS

Ignorance of the law excuses no one.

It is a fraud to conceal a fraud.

The law compels no one to do an impossibility.

An agreement without consideration is void.

Signatures made with a lead pencil are good at law.

A receipt for money paid is not legally conclusive.

The acts of one partner bind all the others.

Contracts made on Sunday cannot be enforced.

INDUSTRIES

The following table shows the number of persons employed in the various industries in the State for the year 1900.

Industry	Number of persons employed
Agriculture	1,234,567
Manufacturing	567,890
Commerce	345,678
Transportation	234,567
Education	123,456
Health	98,765
Other	76,543

The above table shows the number of persons employed in the various industries in the State for the year 1900. The total number of persons employed in all the industries is 2,681,406.

Industry	Number of persons employed
Agriculture	1,234,567
Manufacturing	567,890
Commerce	345,678
Transportation	234,567
Education	123,456
Health	98,765
Other	76,543

The above table shows the number of persons employed in the various industries in the State for the year 1900. The total number of persons employed in all the industries is 2,681,406.

BUSINESS CASE

The following table shows the number of persons employed in the various industries in the State for the year 1900. The total number of persons employed in all the industries is 2,681,406.

A contract made with a minor is void.

A contract made with a lunatic is void.

Principals are responsible for the acts of their agents.

Agents are responsible to their principals for errors.

Each individual in a partnership is responsible for the whole amount of the debts of the firm.

A note given by a minor is void.

Notes bear interest only when so stated.

It is not legally necessary to say on a note, "for value received."

A note drawn on Sunday is void.

A note obtained by fraud, or from a person in a state of intoxication, cannot be collected.

If a note be lost or stolen, it does not release the maker; he must pay it.

An endorser of a note is exempt from liability if not served with notice of its dishonor within twenty-four hours of its non-payment.

COLORADO BUSINESS DIRECTORY.

PART I.

SMALLER TOWNS AND SETTLEMENTS.

[The complete Business Directory of large towns and cities will be found in Part II.]

ACEQUIA.—Station on D. & R. G. R. R., $7\frac{1}{2}$ miles from Littleton. Population 50. C. Babcock, P. M., R. R. agent and J. P.

AGATE.—Station on the Kansas Pacific, 67 miles east of Denver. Population 20.

ALMA.—See complete Business Directory, in Part II.

ALPINE.—Mining camp in Lake county. Population 150. J. E. McClure, James Moore, miners' supplies; Dr. Wright's Hot Springs; Kansas City Mining and Smelting Co.'s Reduction Works, 10 tons capacity; one hotel. Principal mines: Virginia, National, Mary Murphy, Shoo Fly, Clinton, Lizzie, R. E. Lee, Riggins, Hitley, Josephine and Hortense.

ANIMAS CITY.—In Animas Valley, centre of La Plata county, 48 miles from Silverton. Population 250. A. Fuller, P. M.; flouring mill.

ANIMAS FORKS.—21 miles from Silverton. Population 300. Works of San Juan & Dakota, Graham Silver Mining Co., Brown & Epley, and San Juan S. & R. Co.; Stein & Bro., miners' supplies; E. Steinbach, Assayer; W. W. Randall, groceries; L. Mercer, hotel.

ANTELOPE SPRINGS.—Hinsdale county, 4 miles from Silverton, junction of roads from Del Norte to Silverton and Lake City. G. S. Alden, hotel and baths. Population 100.

ANTELOPE PARK.—Hinsdale county. Population 10. C. W. Brooks, hotel and general merchandise.

APISHAPA.—Station on A., T. & S. F. R. R., in Pueblo county, 39 miles east of Pueblo. Population 10.

APISHAPA.—Station on the Denver & Rio Grande Railroad, Las Animas county, 22 miles north of Trinidad; has 3 stores and Foster's hotel. Population 40.

ARAPAHOE.—Station on the Kansas Pacific, 186 miles east of Denver. Population 5.

ARAPAHOE BAR.—Placers 2 miles below Golden, Jefferson county.

ARAPAHOE JUNCTION.—Junction of Mountain and Julesburg Division, C. C. R. R., 2 miles below Golden.

AROYA.—Station on Kansas Pacific R. R., 128 miles east of Denver. Population 10.

ARVADA.—Station on C. C. R. R., 6 miles from Denver. Population 100. E. Upton, general merchandise; W. Groves, wagon maker and Machinist; Mrs. Mary E. King, teacher; a Good Templar's Lodge and 2 Granges.

BAILEY'S RANCHE.—Proposed present terminus of D. S. P. & P. R. R., 47 miles southwest Morrison.

BADITO (*Bad-e-to*), Huerfano county. Population 300. Large business in wool and stock. Johnson's Hotel; T. W. Fouch, general merchandise. Distance to Ft. Garland 35 miles, to La Veta 18, to Pueblo 52.

BAKER'S CAMP, Grand county. Population 25. Principal mines: The Grand Lake, Pelican, Bank of England, Denver Mint, Brick Pomeroy, Ben. Butler, and Henry Fisher lodes.

BAKERVILLE, Clear Creek county. Population 10. Crocker & Dickey, lumber mill.

BALD MOUNTAIN.—Post-office name for Nevada, Gilpin county.

BALLARAT.—New mining camp, $2\frac{1}{2}$ miles north of Jamestown, Boulder county. Population 75. One store, one hotel. Principal mines: Smuggler, Careless Boy, Little Eddy, Eldorado, Wamego.

BEAVER BROOK.—Station on the C. C. R. R., 24 miles west of Denver. J. Babcock, restaurant.

BEAVER CREEK.—Station on the D. & R. G. R. R., 18 miles below Canon City.

BENT'S FORT.—Atchison, Topeka & Santa Fe Railroad, 85 miles east of Pueblo. Forty years ago it was the great trading post of the plains.

BEULAH.—Small settlement in Pueblo county; 40 families. Drake & Co., McPherson, saw-mills.

BIG THOMPSON.—Post-office name for St. Louis, Larimer county.

BLJOU.—Station on the K. P. R. R., 43 miles east of Denver. J. C Mobley, hotel; Z. R. Pettey, general merchandise.

BISMARCK.—Settlement in Saguache county. M. Rominger, general merchandise. Population, 100.

BLACK HAWK.—See complete Business Directory, Part II.

BOGGSVILLE.—An extensive ranch on the Arkansas, $1\frac{1}{2}$ miles from Las Animas. Vose & Kimball, forwarding and commission.

BOULDER CITY.—See complete Business Directory, in Part II.

BOX ELDER.—Station on K. P. R. R., 22 miles east of Denver.

BRADFORD JUNCTION.—On Denver & Fairplay Stage Road. Bradford Junction House, James McNasser, proprietor.

BROOKVALE.—Known as Sisty's, 21 miles west of Morrison. W. E. Sisty, hotel.

BROWNVILLE.—Clear Creek county. Brownville Lodge No. 25, I. O. O. F., William Woodey, N. G.

BOONVILLE.—On the Atchison, Topeka & Santa Fe Railroad, nearly opposite old Ft. Reynolds, about 20 miles below Pueblo.

BRECKENRIDGE.—County seat of Summit. Population, 250. Silverthorn's Hotel; Geo. A. Bressler, livery and blacksmith;

them in Black Hawk, 29; number of stamps, 810. Over 20,000 tons of freight received at the station last year. The Boston and Colorado Smelting Works (capital \$500,000) and Collom Concentration Works are located here. Black Hawk has a good system of water-works for fire protection and domestic use. There are two churches, Presbyterian and Methodist, and a good public school, the building for the latter costing \$14,000.

The Black Hawk Foundry and Machine Shops, Silas Bertenshaw, proprietor, are among the important business enterprises of Black Hawk. They turn out all kinds of mining and milling machinery, iron and brass castings, etc. These works have been long established, and have an extensive trade with all the mining districts. Mr. Bertenshaw, the new proprietor, has long been known to the Colorado public as being owner of the Golden Foundry, which he still runs. His facilities for supplying mining and milling machinery, and for doing all kinds of work in his line, are unsurpassed.

BOULDER HOUSE,

BOULDER, COLORADO.

T. C. BRAINARD, - - - - - **Proprietor.**

This House is situated at the mouth of the celebrated BOULDER CANYON, ten miles from the Falls, and in the midst of some of the

FINEST SCENERY IN COLORADO.

The House is supplied with pure, soft, spring water, and every comfort is offered to guests.

The House has been completely refurnished, and been extended by the addition of forty rooms, in a new brick house, with everything new and in complete order for the comfort of guests.

OFFICE OF THE STAGE LINES TO ALL POINTS.

to Denver in population, wealth and influence. Some idea of its prosperity may be gained from the following statement:

	Population.	Annual Trade.
1871	600	\$250,000
1873	750	375,000
1875	2,100	1,130,000
1877	4,000	1,500,000

A very rich country lies on every side. Within a radius of fifteen miles are the fertile agricultural valleys of the North and South Boulder, Left Hand and St. Vrain Creeks; the Erie coal mines; the Belmont Iron region; the celebrated Sunshine, Gold Hill, Sugar Loaf, Bald Mountain, Pennsylvania, Peewink, Caribou, Snowy Range, Ward, Magnolia, Four-Mile, Silver City and Jamestown gold and silver mining districts; iron, mica, gypsum, building stone and clay; abundant timber and unexcelled water power. All these are utilized and made tributary to Boulder by a system of good mountain roads.

The educational advantages of Boulder are superior to those of most towns of its size. A \$15,000 public school building,

GEO. E. KING & CO.,
Architects and Superintendents.
PLANS AND SPECIFICATIONS FURNISHED.

Office: Stewart's Block, Pearl Street, - - - - BOULDER, COL.

handsomely furnished, is one of the chief attractions of the place. There are also good private schools. The State University, located here, is a fine building, to the erection of which the citizens contributed over \$15,000.

Church facilities are good, the Baptist, Congregational, Episcopal, Methodist and Presbyterian societies having places of worship.

The *Boulder County News*, one of the best-conducted journals in Colorado, is published at this place, and has done much to stimulate leading enterprises, as well as to sound abroad the advantages of Boulder.

A good system of water-works is in operation; the fire companies afford ample protection to property; a street railway will soon be in operation through the main street to the Colorado Central depot. All the wants of a live and enterprising community are rapidly supplied.

Boulder has rapidly enlarged her trade; and not only do the mining camps and districts look to this point as their supply depot, but so do also the thriving towns of Sunshine, Caribou, Nederland, Longmont, Valmont, Erie, and all the scope of country thickly settled by farmers and miners for twenty miles around.

Distances: Boulder to Denver, by stage 28 miles, by railroad 44 miles; to Golden, 24; to Erie, 12; to Longmont, 15; to Caribou, 20; to Cutter's Reduction Works (Nederland), 16; to Central City, 30; to Georgetown, 42; to Julesburg, 180; to Ward, 17; to Peabody Springs, 10; to Gold Hill, 9; to Sunshine, 5; to Salina, 6.

EDITORIAL NOTES.

BANKING.—No financial institution in Colorado is better known, or has a better name, than the banking house of Buck-

HENRY & METCALF,

PROPRIETORS OF

OMNIBUS LINE,**LIVERY, FEED AND SALE STABLES,****BOULDER. COLORADO.**

PASSENGERS CALLED FOR AND DELIVERED TO ALL PARTS OF THE CITY.

Stable on Pearl Street, West of Court-house

ingham Brothers. The members of the house are gentlemen of abundant means, sagacious and public-spirited. They have led the way in a large number of beneficent enterprises, and contributed largely to the advancement of all the material interests of Boulder, as well as of the surrounding country.

REAL ESTATE, LOAN, MINING AND INSURANCE AGENCY.—Boulder gained much by the accession of such a live, progressive man as John A. Ellet, Esq. He is not only a zealous and clear-headed business man, but a moving spirit in educational, social and other enterprises. His fine brick block, complete and metropolitan in appearance, is a credit to the town. Mr. Ellet has his office in this block. He is doing a large business in real estate, mining and insurance; is possessed of ample means, and is in all respects a safe adviser.

Mr. Ellet has for sale improved and unimproved town property, first-class grain and stock farms, coal, timber and precious mineral lands, as well as mines of gold and silver in all stages of development. He is also agent for the sale of the Denver Pacific Railway lands, and represents the very best class of insurance companies. He makes investments and loans money for non-residents, and assumes the care of their property in their absence. That all trusts are faithfully discharged by him, the large business he is doing is one proof, and the excellent references he gives is another. See his advertisement.

HOTEL.—The Boulder House, for years *the* hotel, and always enjoying a large patronage, has, during the past two years, under the direction of T. C. Brainard, Esq., been more than ever the popular resort for travelers in this part of the country. Everything about the house has the air of neatness and comfort. The sleeping-rooms are well furnished, and the tables

supplied with the very best. Mr. Brainard evidently knows "how to run a hotel" in the interests of his guests as well as to his own profit. All the stages start from this house. Commercial travelers will find an elegant parlor fitted for their special use, where they can chat, smoke, be at ease, and show their goods. See advertisement.

CANON CITY.

County seat of Fremont county. Terminus of the Arkansas Valley Branch of the Denver & Rio Grande Railway. Daily mails and express. Money order post-office. Western Union Telegraph. Stages to Del Norte, Saguache and San Juan mines; to Rosita and Hardscrabble; to Fairplay and South Park; to Ula and Wet Mountain Valley. Population 1,000. With coal, iron, copper and silver in abundance, it is probable that smelting and reduction works will soon be erected here, utilizing not only the rich material resources immediately at hand, but making the Rosita San Juan and South Park silver mines largely tributary to Canon City. Great interest is taken in educational affairs. A public school-house, costing \$6,000, and a fine Episcopal seminary, to cost \$15,000, are being built. There are three church edifices: Methodist Episcopal, Baptist, and Cumberland Presbyterian; The Protestant Episcopal are building a church and high school; there is also a Presbyterian (Regular) and Methodist Episcopal, South, organization.

Distances: To Fairplay, 75 miles; Granite and Oro City, 100; South Arkansas, 70; Saguache, via Poncha Pass, 110; Del Norte, via Poncha Pass, 143; Pueblo, 45; Colorado Springs, 50; Denver, 130; Rosita, via Oak Creek, 28; Iron Mines, 5 to 12; Coal Mines, 3 to 15; Marble Caves, 12; Iron Rock Spring, 3½; Hot Springs, 1; Soda Springs, ½; Main Canon of the Arkansas river, 5 to 10; Lincoln Park, 2.

CENTRAL CITY.

County seat of Gilpin county, and principal gold mining center of Colorado. Daily mails and express. Western Union Telegraph. Daily stages to railroad depot at Black Hawk, to Georgetown, Idaho Springs, Nederland, Caribou and Boulder. Population, 3,000. City valuation, \$924,231. There are about 100 business houses; these occupy compactly both sides of Main street, and the adjacent portions of Eureka, Lawrence, Gregory, Spring and Nevada streets.

Central City is flanked on the east by Black Hawk, with a population of 1,500, and westerly by Nevada, having about 1,000 people; the three places forming a continuous settlement over three miles in length, with numerous arms reaching up the tributary gulches. The surrounding hills are literally honey-combed with mines.

H. J. KRUSE & CO.,

Dealers in Staple and Fancy Groceries,

Choice Teas, Crockery, Tobacco, Wood and Willow-ware.

AGENTS FOR DUPONT'S POWDER.

Lawrence Street, - - - CENTRAL CITY, COL.

The production of gold and silver from them has been as follows:

To January 1, 1870 (estimated).....	\$25,000,000
For 1870.....	1,267,900
" 1871.....	1,378,100
" 1872.....	1,389,289
" 1873.....	1,440,502
" 1874.....	1,695,804
" 1875.....	2,010,391
" 1876.....	2,500,000
Total.....	\$36,681,986

The quality of the mines may be seen from the following statement of three lodes:

Lode.	Discovered.	Yield to present time.	Product 1876.
Gregory.....	1859	\$5,000,000	\$250,000
Bob-tail	1859	3,500,000	200,000
Buell	1870	1,000,000	165,000

Among other prominent lodes, are the Burroughs, Kansas and Bates.

The Central City land district was established in 1868. The whole number of applications for mineral entries to May 5, 1876, is 1,059. The whole number of mineral entries is 743, leaving 316 either in suspense, or waiting the expiration of publication notice. The number of mineral entries of Gilpin county property is 265, upon 178 different lodes, covering 211,578 linear feet, or over 40 miles of lode property.

Among the leading institutions of Central City are three banks, one newspaper—the *Register*—three first-class hotels, six churches, a handsome granite public school building, and St. Aloysius Academy. Central has important attractions for tour-

1. The purpose of this report is to provide a summary of the results of the study conducted by the Department of the Interior, Bureau of Land Management, in the area of the proposed project. The study was conducted in accordance with the requirements of the National Environmental Policy Act (NEPA) and the Federal Land Management Policy Act (FLMPA).

2. The study was conducted in the area of the proposed project, which is located in the State of California. The project is a proposed development of a new facility, which is expected to have a significant impact on the environment.

3. The study was conducted in accordance with the requirements of NEPA and FLMPA. The study was conducted in the area of the proposed project, which is located in the State of California. The project is a proposed development of a new facility, which is expected to have a significant impact on the environment.

4. The study was conducted in accordance with the requirements of NEPA and FLMPA. The study was conducted in the area of the proposed project, which is located in the State of California. The project is a proposed development of a new facility, which is expected to have a significant impact on the environment.

5. The study was conducted in accordance with the requirements of NEPA and FLMPA. The study was conducted in the area of the proposed project, which is located in the State of California. The project is a proposed development of a new facility, which is expected to have a significant impact on the environment.

Area	Impact	Mitigation
Water	Increased demand for water	Install water-saving devices
Land	Loss of habitat	Protect sensitive areas
Air	Increased air pollution	Install air pollution control devices
Soil	Increased soil erosion	Install erosion control measures
Vegetation	Loss of vegetation	Replant native plants
Wildlife	Disturbance to wildlife	Protect wildlife habitat

6. The study was conducted in accordance with the requirements of NEPA and FLMPA. The study was conducted in the area of the proposed project, which is located in the State of California. The project is a proposed development of a new facility, which is expected to have a significant impact on the environment.

7. The study was conducted in accordance with the requirements of NEPA and FLMPA. The study was conducted in the area of the proposed project, which is located in the State of California. The project is a proposed development of a new facility, which is expected to have a significant impact on the environment.

8. The study was conducted in accordance with the requirements of NEPA and FLMPA. The study was conducted in the area of the proposed project, which is located in the State of California. The project is a proposed development of a new facility, which is expected to have a significant impact on the environment.

GRANITE HOUSE,

CENTRAL CITY, COLORADO.

THIS HOUSE IS FIRST-CLASS IN EVERY RESPECT.

L. M. FREAS, Manager.

ists. The ride from Denver is via the Colorado Central Railway through the famous Clear Creek Canon to Black Hawk, thence carriages one mile to Central. Within a radius of a mile or two are many points accessible by carriage, from which most charming views may be obtained; such as Bald Mountain, Quartz Hill, head of York Gulch, etc. Good liveries and saddle horses may be obtained for these trips.

BANKING.—The card of the First National Bank of Central City, found on page 88, represents one of the most reliable banks in Colorado. The officers and directors are among the oldest and most successful business men of Gilpin county, thus guaranteeing good and safe management in all their business transactions. Their references are the very best.

Distances: To Black Hawk, 1 mile; Denver, 38; Nevada, 2; Caribou, 20; Nederland, 18; Georgetown, 19; Idaho Springs, 6.

EL PASO COUNTY BANK,**COLORADO SPRINGS. COL.**

DIRECTORS: Wm. S. Jackson, J. S. Wolfe, C. H. White, A. F. Goodrich.

Transacts a General Banking and Exchange Business.**COLORADO SPRINGS.**

County seat of El Paso county. Station on Denver & Rio Grande Railroad; Western Union Telegraph Co. Daily mails and express Stages daily to Manitou; Mondays, Wednesdays and Fridays to Fairplay and South Park. Population, 2,500.

The town takes its name from numerous valuable mineral springs in the vicinity, the most important of which are located in a most beautiful glen, five miles distant, to which has been given the name of Manitou.

The business interests of Colorado Springs are represented by three well-managed and substantial banking institutions: the El Paso County, First National, and People's; two newspapers; and the various trades and professions are well filled by a wide-awake and progressive class of business men.

There are excellent public and private schools. Colorado College is located here, and fine buildings will soon be erected. A Deaf and Dumb Institute is in operation. The Presbyterians, Methodists, Episcopalians, Baptists, Congregationalists, Southern Methodists, Cumberland Presbyterians and Unitarians have commodious church buildings.

Some idea of the growth of Colorado Springs, which is but five years old, may be gained from the following figures:

BUILDINGS ERECTED.

	—1875—		—1874—	
Stone.....	3	\$ 42,800	7	\$ 28,800
Brick.....	19	85,500	47	117,300

Distances: Manitou (Soda Springs), $5\frac{1}{2}$ miles; Canon and Falls of the Fountain, 6; Iron Springs, in Engleman's Canon, $6\frac{1}{4}$; Summit of Pike's Peak, in air line 13, by road and trail 20; Garden of the Gods, Glen Eyrie, Cheyenne Canon, 4; Falls in Cheyenne Canon, 5; Bear Creek Canon, 4; Monument Park, 9; Petrified Forest, 22; Bergen Park, 30; Fairplay (South Park), 85; Pueblo, 42; Denver, 75; Canon City, by road 43, by rail, via Pueblo, 87.

EDITORIAL NOTES.

HOTEL.—The Central Hotel, Mrs. M. M. Stephens, proprietress, is a neat and well-kept house, where the guest can find good accommodations at very low prices, as the advertisement elsewhere will show. Travelers should give the "Central" a trial.

MERCHANT TAILORING.—See the advertisement of Charles Stearns, on another page. He has been established in Colorado Springs for some time, gradually increasing his stock as his increasing trade demanded, and now carries a complete line of cloths, cassimeres, and everything found in a first-class merchant tailoring establishment. He is prompt, pleasant to deal with, and understands his business.

WEBSTER'S UNABRIDGED DICTIONARY.

Webster now is glorious—Pres. **RAYMOND**, Vassar Col. Every scholar knows its value—**W. H. PRESCOTT**. Best defining Dictionary—**HORACE MANN**. Standard in this office—**A. H. CLAPP**, Gov't Printer. The etymology without a rival—**JOHN G. SAXE**. Excels in defining scientific terms—Pres. **HITCHCOCK**. Remarkable compendium of knowledge—Pres. **CLARK**. "The best practical English Dictionary extant."—**LONDON QUARTERLY REVIEW**, October, 1873.

Warmly recommended by Bancroft, Prescott, Motley, Geo. P. Marsh, Halleck, Whittier, Willis, Saxe, Elihu Burritt, Daniel Webster, Rufus Choate, and the best American and European scholars.

A necessity for every intelligent family, student, teacher, and professional man. What library is complete without the best English Dictionary?

A NEW FEATURE—To the 3,000 Illustrations heretofore in Webster's Unabridged we have recently added four pages of Colored Illustrations, engraved expressly for the work, at large expense. Also, Webster's National Pictorial Dictionary—1040 pages octavo, 600 engravings. Price, \$5.00.

Webster's Primary School Dictionary, 204 Engravings; Webster's Common School Dictionary, 274 Engravings; Webster's High School Dictionary, 297 Engravings; Webster's Academic Dictionary, 344 Engravings; Webster's Counting House Dictionary, with numerous illustrations and many valuable tables not to be found elsewhere.

ENGINEERING AND MINING JOURNAL OF NEW YORK.

AN ILLUSTRATED WEEKLY JOURNAL DEVOTED TO

Mining, Metallurgy and Engineering.

EDITORS:

RICHARD P. ROTHWELL, Mining and Civil Engineer.

ROSSITER W. RAYMOND, Ph. D., U. S. Com'r of Mining Statistics.

THE ENGINEERING AND MINING JOURNAL is the Official Journal of the American Institute of Mining Engineers, and it alone publishes all the valuable papers read before that Society, the only one of the kind in America.

It is the recognized highest authority in America on all questions of Mining, Metallurgy and Engineering, and has by far the largest circulation and greatest influence of any paper in the United States devoted to these subjects.

It publishes, weekly, full and accurate Trade Reports on Coal, Iron, Metals, and on Mining and other Stocks.

Its Editors, being Mining Engineers and Metallurgists of extensive practical experience and high professional reputation, insure the reliability and practical value of the information it gives.

LECTURES ON MINING.

At the present time it is publishing, with appropriate illustrations, the Lectures on Mining delivered at the Royal School of Mines, London, by Professor W. W. Smyth. This course will extend to about sixty lectures, and is so valuable as alone to be worth to every Student in Mining, Mining Engineer, or practical Miner, much more than the entire year's subscription to the JOURNAL.

THE ENGINEERING AND MINING JOURNAL publishes Illustrated Descriptions of all Improvements in Mining, in Mining and Milling Machinery, and in Metallurgical Processes.

SPECIAL CORRESPONDENCE.

THE ENGINEERING AND MINING JOURNAL has for its Special Correspondents the ablest Mining Engineers and Metallurgists in every portion of America, and the information it gives is, therefore, the most reliable and valuable, both in a technical and financial sense, that can be obtained. This is of the greatest importance to those who have invested, or propose investing, in Mines or Mining Securities in America.

AS AN ADVERTISING MEDIUM.

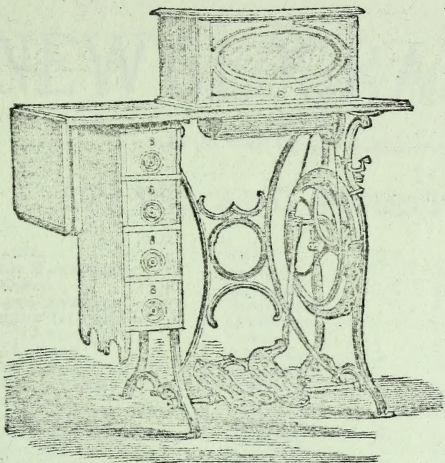

THE ENGINEERING AND MINING JOURNAL is the best medium in America in which to advertise all kinds of Mining and Mill Machinery and Supplies.

Its large and influential Foreign Circulation makes it the best medium through which to make known the value of Mines and Mineral Properties for sale, or for the development of which capital is needed.

Subscription Price, \$4.00 a year.

ADVERTISING RATES—25 cents a line inside, 50 cents a line on front page, for each insertion. Special reduced rates given on cards occupying a large space or contracting for a long time.

THE WHITNEY!

Half Cabinet, Retail \$80. To Patrons, \$40.

The most perfect, well-balanced Sewing Machine ever invented. Combining

NEW IMPROVEMENTS!

that place it in the van of every other machine in use. Its compactness, simplicity, and thorough construction are admirable. The most inexperienced operator soon masters the simple operations of the Whitney Machine. Every machine is warranted, and satisfaction guaranteed in all cases.

TWENTY DAYS'

trial allowed to test and prove the working excellencies of our machine.

All Styles Half Price to Patrons.

All Styles Half Price to Sovereigns.

All Styles Half Price to Labor Organizations.

Special prices also given to non-members upon application by letter to the factory at Paterson, or to 22 Adams street, Chicago.

A STRICTLY FIRST-CLASS SEWING MACHINE.

Sold only for cash from the factory, or the Whitney Man'g Co.'s Western agencies, at 22 Adams street, Chicago; 14 Commercial street, St. Louis; 106 Davis street, San Francisco.

For perfection of workmanship, ease of operation, adaptation to all family sewing, and cheapness, the Whitney surpasses all machines now in the market. All machines are sent out threaded, ready to sew; and such is their simplicity and precision, that, aided by the printed instructions, the most inexperienced will be able to sew nicely at once. Send for Circulars to your State or subordinate Agent, or to the

PHILADELPHIA.

DEL NORTE.

County seat of Rio Grande county, situated on the river of that name. The principal town in southwestern Colorado, and chief outfitting point for San Juan mines. Population, 1,500. Stages every other day to La Veta; tri-weekly to Baker's Park and the mines. Distant from the Summit, Alamosa, Telluric and Decatur gold districts south, 30 miles; the Lake silver mining district northwest, 80 miles; and 100 miles from Silverton, the heart of the great San Juan silver mines, comprising the districts of Animas, Eureka, Adams and Uncompahgre.

There is an abundance of pine timber within a few miles. Several saw-mills are in operation. The Rio Grande furnishes abundant water-power. The erection of reduction and refining works is talked of. Del Norte has good schools, and the citizens have voted \$10,000 to build a public school-house. There are three church societies.

The Denver and Rio Grande Railroad will probably be extended to Del Norte during the summer of 1877. The city has made commendable progress, and most of the buildings are of a character that show that the owners have faith in the future of Del Norte. A fine new public school-house and church are among the acquisitions of the past year.

The San Juan *Prospector*, a well-managed weekly newspaper, Cochran & Roberts, proprietors, is doing much to help forward the growth and public interests of the town.

Distances: Fort Garland, 65 miles; Cucharas, 125; Antelope Springs, 55; Canon City, 145; Colorado Springs, via Ute Pass, 190; Wagon Wheel Gap, Sulphur Springs, 30; Pueblo, via Mosca Pass, 120; via Sangre De Christo Pass, 150; Santa Fe, 180; Lake City, 85; Denver, 227; Saguache, 35.

BANKING.—The Bank of San Juan, Daniels, Brown & Co., proprietors, stands at the head of the financial institutions of southern Colorado, and is second to none in the state. The members of the firm are successful and wealthy business men, and are also directors in the City National and Colorado National Banks of Denver. They are among the oldest citi-

zens, well known, and of commanding influence throughout the state. The Bank of San Juan is managed with both prudence and liberality. It has contributed largely to the prosperity of Del Norte, and to the development of the rich surrounding country. During the past year it handled almost the entire gold and silver product of the San Juan mines. It has ample facilities for doing a large business, and although the Southwest promises to grow up rapidly and greatly increase its commercial interests, yet we predict that the Bank of San Juan will always lead the way, with resources and facilities enough to do all the business that is offered, and a great deal more.

EL MORO.

A new town on the Purgatoire, five miles below Trinidad. The terminus of the Trinidad Branch of the Denver & Rio Grande Railroad, exactly midway between Denver and Santa Fe.

The buying and shipping of wool and hides is carried on very extensively here; and it is the re-shipping point at which the vast freight of New Mexico and Arizona is transferred to teams.

Stages leave daily for Santa Fe, distant 205 miles. Distance to Cucharas, 38; Pueblo, 86; Denver, 206.

FAIRPLAY.

Capital of Park county. Daily mails and express. Denver & South Park Stage Line. Dicken's Freight Line. Atlantic & Pacific and Western Union Telegraph Lines. Population, 750.

The principal industry consists of lode and placer mines. Most notable of the latter are Clark & Smith's, at Fairplay; Pease & Freeman, on Beaver Creek, one and a-half miles distant; Mills & Hodges, between the mouth of Mosquito and Buckskin Gulches. Lode mines are found on Mounts Lincoln and Bross. Principal mines, or noted mines, are the Dolly Varden, Moose, Hiawatha, Lincoln, Elephant, Erie and Russia. Average altitude above sea level, 14,000 feet.

To the south are the Soda Springs, on Frying Pan or Colorado Gulch, and the Warm Springs on Chalk Creek, each of which have an established local reputation.

Coaches daily to Morrison, connecting with Denver, South Park & Pacific R. R. to Denver; to Colorado Springs tri-weekly; tri-weekly to Oro City, Twin Lakes, Granite and Riverside; weekly to Castello's and Canon City; every Saturday to Helena, Centreville and South Arkansas.

Distances: To Salt Works, 20 miles; Granite, 40; California Gulch, 35, by trail 20; Twin Lakes, 40; Montgomery, 12; Dudley, 7; Alma, 6; Quartzville, 10; Buckskin, 7; summit of Mt. Lincoln, 11; a good wagon road to within 400 yards of the summit; South Arkansas, 60.

GEORGETOWN.

Capital of Clear Creek county, and centre of the chief silver region. Daily mails and express. W. U. telegraph line. Daily stages to Central, Idaho Springs, and to Floyd Hill, terminus of the Colorado Central R. R., Georgetown Branch; also, to Silver Plume, Empire, etc.; tri-weekly to Hot Sulphur Springs. Georgetown, in population and wealth, is the second city in Colorado. Population, 5,000.

From the assessment returns for 1875, we find that the value of mines, mills and town lots in Georgetown, is placed at \$1,536,342; capital in merchandise, \$163,885.

As an indication of the amount of business done, we would say that over fifty outfits are engaged in freighting between Floyd Hill and Georgetown, bringing to town over 10,000 tons per year.

The chief industry is mining. Here is the famous Terrible Mine, yielding a silver product worth \$250,000 a year. In the vicinity are the noted mines and tunnels of Leavenworth,

WM. H. CUSHMAN, President.

WM. L. HADLEY, Cashier.

FIRST NATIONAL BANK

OF GEORGETOWN, COL.

Paid-in Capital.....	\$ 75,000	Undivided Profits	\$50,000
Surplus.....	125,000	Capital, Surplus and Und. Profits	250,000

Special Attention given to Collections.

Republican, Sherman, Democrat, Brown, Kelso, McClelland and Griffith mountains; the mining districts of Geneva and Dailey; the towns and camps of Silver Plume, Empire, Bakerville, Argentine; and numerous mills and furnaces.

The silver production up to the beginning of—

1870, was about.....	\$ 500,000
For 1870 (estimated).....	500,000
" 1871 (estimated).....	800,000
" 1872.....	1,450,000
" 1873.....	1,140,000
" 1874.....	2,203,947
" 1875.....	2,110,902
" 1876.....	2,000,000

Total.....\$10,704,849

During the same time the gold product of the county has been \$3,000,000, making in all, \$13,704,849.

There are good public and private schools, and Congregational, Episcopal, Methodist, Presbyterian, and Catholic churches.

The town has two banks, the First National Bank of Georgetown, of which Wm. H. Cushman is president, and Wm. L. Hadley, cashier, having a capital, surplus, and undivided profits of \$250,000. During the year of 1875 this bank sold exchange amounting to \$2,819,602.32. The aggregate deposits for the same time were \$5,185,111.42. The Clear Creek County Bank went into operation during the past year.

As a point for tourists Georgetown has great attractions. It is almost at the end of civilization on the Atlantic slope, within nine miles of the summit of the Rocky Mountains, with snow and frosts among the luxuries of midsummer.

Among the neighborhood attractions are the ascent of Gray's Peak and Griffith Mountain, a visit to Green Lake, a trip over into Middle Park, and to the Hot Sulphur Springs; side visits to Idaho, the old mining camp at Empire, which has produced in former years \$2 000,000 in gold; Cascade City, and Chicago Lakes.

Distances: Georgetown to Green Lake, $2\frac{1}{2}$ miles; Chicago Lakes, 8; Argentine, 6; Top of Range, 9; Snake River Pass, 9; Brownville, 3; Silver Plume, 2; Bakerville, 7; Summit of Gray's Peak, 14; Empire, 4; Fall River, 12; Idaho Springs, 14; End of Track, 19; Central City, 20; Golden, 33; Denver, 50; Hot Sulphur Springs of Middle Park, 46; Breckenridge, via Argentine Pass, 38; Montgomery, 58; Fairplay, 73.

THE HISTORY OF THE CITY OF BOSTON

From the first settlement of the city in 1630 to the present time. The city of Boston was founded by a group of Puritan settlers who came to the New World seeking religious freedom and a better life. The city grew rapidly and became one of the most important centers of commerce and industry in the colonies. The city was the site of many important events in American history, including the Boston Tea Party and the Battle of Bunker Hill. The city was also the center of the American Revolution and the birthplace of many of the nation's leaders.

GOLDEN.

Capital of Jefferson county. Junction of broad and narrow gauge divisions of Colorado Central Railroad. Daily mails and express. Western Union and Atlantic & Pacific Telegraph. Stages to Denver and Morrison. Population, 2,000.

The location and material advantages of Golden are not surpassed anywhere in Colorado. It lies in the valley of Clear Creek, the fall of which is about sixty-five feet per mile, and the supply of water is sufficient at all seasons to drive any amount of machinery. There are in the city limits, and surrounding them, immense coal mines, already extensively worked, and large deposits of fire and potter's clay, and quarries of excellent lime and building stone. These manufacturing advantages have attracted the attention of capitalists, and there are now in active operation in Golden, one paper mill, three flouring mills, two planing mills, one steam saw mill, one foundry, two smelting and reduction works for ore, one fire brick and pottery

works, three works for the manufacture of fire and common bricks, two breweries, and the car and repair shops of the Colorado Central Railroad.

The abundance of cheap fuel, fire-clay, and superior water-power at Golden, together with its proximity to the gold and silver districts of Gilpin, Clear Creek, and Boulder counties, make it an important point for the treatment of ores; and, appreciating this fact, the Collom Brothers erected their immense reduction establishment.

The business interests of Golden are well represented by the usual trades and professions. The banking house of F. E. Everett, pursuing a liberal but prudent course, has largely aided all public enterprises and improvements, and receives in turn liberal recognition and support.

Distances: To Denver, wagon, 12—rail, 11 miles; Central, 22; Georgetown, 33; Littleton, 15; Boulder, 28; Longmont, 41; Pueblo, 134; Julesburg, 220.

EDITORIAL NOTES.

COLORADO DRESSING AND SMELTING CO.—This is one of the most gigantic enterprises that has been inaugurated in Colorado. It contemplates nothing less than the establishment of a large Dressing Works in every important mining district in Colorado, for the concentration of low grade ores, and the smelting of the enriched product at their mammoth smelting establishment in Golden. The main building of the latter, consisting of brick walls and iron roofing, covers about 20,000 square feet of ground, or nearly half an acre. All the concentrating machinery used by this company was invented and patented by Mr. John Collom, their general manager. And Mr. Collom's older machines are used in most of the important mining countries of the entire world, invariably superseding all other inventions.

GOLDEN FOUNDRY AND MACHINE SHOP.—This is the pioneer iron works of Colorado. Mr Bertenshaw, the proprietor, is also owner of the well-known Black Hawk Foundry. He has been established in Golden some seven years. Early impressed

with the great natural advantages of this place, he has made it his home; has to a great degree perfected his works, but is still improving them, and by his industry, energy, liberality and a perfect knowledge of business, contributed largely to the prosperity of Golden.

GREELEY.

Principal town in Weld county. Settled in 1870. Population 2,000. On the line of the Denver Pacific Railroad. Daily mails and express. Tri-weekly stages to Ft. Collins and La Porte. Western Union Telegraph Line.

Greeley is supported in its permanent growth by the splendid agricultural and stock-raising country surrounding it, and by its water-power, affording good manufacturing facilities. It will always have a large share of the tourists' patronage, and its quiet, orderly and pleasant community and equable climate will make it *par excellence* an invalids' home.

There are four churches, good public and private schools, two banks, two excellent weekly newspapers—the *Sun* and the *Tribune*—and the usual trades and professions are well represented. A graded school-building was finished in 1873, at a cost of \$30,000.

Distances: Evans, 4 miles; Longmont, 30; Boulder, 43; Caribou, 59; Caribou, via Left Hand Canon, 40; Central City, by either Boulder or Left Hand, 77, via Denver and Golden City, 90; Denver, 52; Cheyenne, 54.

EDITORIAL NOTES.

Pioneer Robe and Leather Tannery.—This is the largest establishment of the kind in the west, and has new buildings, complete and superior machinery and skilled workmen. One of the largest sales of Colorado home manufactured articles ever made, was by Messrs. Fuller & Federson, of the Pioneer Robe manufactory, to Mr. J. S. Flory, for shipment east, amounting to eight thousand four hundred dollars. Messrs. Fuller & Federson think that nothing is wanted but energy and application to ultimately make Greeley the robe-opolis of the country. They are now making calculations to turn out from 5,000 to 10,000 first-class robes during the coming year.

A. C. KOOGLE is the pioneer in the buffalo hide tanning business in Greeley, having started in the winter of 1872. Previous to then the Indians had the monopoly of the trade, but he conceived the idea that white men, with their habits of trained industry and skilled appliances, might turn out a better article than the savages. He has made various additions and alterations to his establishment, which make it the most convenient and capacious one in town. The main building, two stories, is 22x32, with a one-story wing 18x32. He has two lime pits and six vats. Water is let into the vats and drawn off in the same way as at Olmstead & Co.'s. In addition, his fulling mill, worked on the trip-hammer principle, is propelled by water-power. He will soon put in a large drum, for fulling purposes. He tans all kinds of furs.

J. S. FLORY. This gentleman has done much to assist all the manufacturers, by buying up all the products and placing them in eastern markets. His experience enables him to select the best of goods, and can always supply orders promptly, guaranteeing quality. He handles a large share of all the robes, furs, and other manufactured products that are turned out by the six or eight establishments at Greeley. He has now on hand about 4,000 robes. Mr. Flory is prompt and reliable.

IDAHO SPRINGS.

One of the oldest settlements in Clear Creek county; once the county seat. Daily mails and express. Western Union Telegraph. Daily stages to Georgetown and Central, and to Floyd Hill (terminus of the C. C. R. R.) The principal mines in the vicinity are the Seaton, Crystal, Veto, Hukell, Edgar, Clifton. Collom's Concentration Works are located here, employing thirty men.

Idaho Springs is one of the pleasantest towns in Colorado, and an attractive summer resort. It is the location of the cel-

NOXON'S IDAHO SPRINGS SYSTEM RENOVATOR

FOR THE CURE OF

ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD

It strengthens and builds up the system, instead of debilitating and weakening, and aids nature to perform its duties. It gives strength and vigor to the whole body. It vitalizes and enriches the blood. It is emphatically NATURE'S ASSISTANT.

THIS GREAT REMEDY IS GOOD ALIKE FOR CHILD OR ADULT.

IT CURES ALL

*Skin Diseases, Liver Complaint, Dyspepsia, Asthma,
Sick Headache, Painters' Colic, Costiveness,
Neuralgia, Chronic Diarrhœa, Cholera
Morbus, Bilious Fever and Ague.*

It acts directly on the Stomach, Bowels, Liver and Kidneys.

To the Ladies it is an indispensable boon, as, by its purifying properties, it cures all diseases incident to the sex, and removes all pimples, blotches, or imperfections of the skin, making it clear and healthy. It is the best health-restorer in the world. Carefully prepared after years of patient research and careful observation while in the active practice of medicine. Those using

NOXON'S IDAHO SPRINGS SYSTEM RENOVATOR

may rest assured that they are not taking a quack restorative, but a Remedy both safe and reliable under all circumstances. A single trial will convince the most skeptical that it is just as recommended. All orders promptly attended to.

Price \$1 per Bottle, Six Bottles for \$5. Special rates to Dealers.

For sale by all Druggists.

Dr. A. M. NOXON, Proprietor,
IDAHO SPRINGS, COL.

ebreated hot soda springs, and its baths are not equaled in the state. In the immediate vicinity are a number of the best mines in the county, and it is located in the center of the deep channel mining for gold on Clear Creek. The population is variously estimated at from 800 to 1,100, and contains stores, markets, hotels, brewery, three churches, and a good school-house.

Distances: Idaho to Fall River, $2\frac{3}{4}$ miles; Mill City, $5\frac{1}{2}$; Georgetown, 13; Empire, 10; Berthoud Pass, 16; Hot Sulphur Springs, Middle Park, 60; Chicago Lakes (trail) 15; Bear Creek (trail), 8, Central City, 6; Black Hawk, 7; Golden, 23; Denver, 34; Cheyenne, 145.

EDITORIAL NOTES.

Noxon's Renovator has won a high reputation for the cure of the various diseases named in the advertisement on the preceding page. Asthmatics will be particularly interested in the fact that it is a sure cure for that almost incurable trouble. Large numbers have tried it and pronounce it infallible. The Renovator is having a large sale, as it ought to, and promises to give its proprietor a wide fame.

LAKE CITY.

Lake City, the entrepot of the San Juan mining country, and the county seat of Hinsdale county, was founded in August, 1874. When the summer of 1875 opened, the town contained thirteen log cabins. During the year 1875 it grew rapidly, and a large amount of capital was invested in the town and vicinity; but its solid growth and most substantial prosperity date from the beginning of the season of 1876. The *Silver World*, of Nov. 18th, 1876, contains the following:

"When the immigration of 1876 opened new comers flocked hither in thousands. A new store opened almost every day. The Crooke Brothers began erecting their extensive mill for concentrating ore. Two new saw-mills and a planing-mill came. Religion began to receive outward observance. Sunday schools and church services furnished diversion for one portion of the community, and faro-banks, saloons, and bowling-alleys for another.

"The Hotchkiss, Belle of the West, Ocean Wave, Ute, Ule, and many others of the best mines were extensively worked, and put a great deal of money into circulation. Capitalists came to invest. The Henson Creek road was started and mines along its banks at once increased tenfold.

"Lots in town jumped from a merely nominal value to hundreds of dollars. In one or two cases a thousand dollars has been offered and refused for a peculiarly desirable location.

"Buildings of every description—the rude cabin and enormous warehouse; the sanctuary and the gilded saloon; log, frame, brick, and adobe arose on every hand. The din of hammer and saw never ceased. So rapid was the growth that no one pre-

GUNNISON AVENUE,
LAKE CITY, - - - - - COLORADO.

tended to keep pace with it even for a block each way on his own street. The oldest resident would scarcely recognize the town after a week's absence. Nearly every luxury that gratifies the palate in New York or Chicago could be bought of our merchants at very reasonable prices. Two banks furnished their much needed facilities. Jewelry glistened in the show windows. The daily papers of New York, Chicago, and San Francisco were on sale at the news stands. Lawyers and assayers swarmed into town like the locusts in Egypt. All was bustle and activity.

"By a recent census of the town the following statistics have been obtained: The town now contains 10 assayers; 3 bakeries; 2 banks; 3 barber shops; 2 billiard halls; 5 blacksmith shops; 3 boot and shoe stores; 2 brick yards; 2 breweries; 2 cigar factories; 1 clothing house; 5 corrals and feed stables; 2 drug stores; 1 furniture house; 14 stores, dealing in general merchandise; 4 hardware stores; 4 hotels; 2 jewelry establishments; 4 Chinese laundries; 15 lawyers; 4 meat markets; 3 news deal-

ers; 3 painters; 1 planing mill; 6 restaurants (two open all night); 7 saloons; 4 saw-mills; 1 shingle-mill, and 9 surveyors. The town, with its immediate suburbs, contains about 350 buildings, and about 1,500 people. The amount of freight brought in during 1876 was about 5,000,000 pounds.

"That Lake City has already become the great entrepot of the San Juan country is no longer disputed. Prices of goods and provisions here are generally as low as in Saguache or Del Norte. The large wholesale houses here propose to keep the heaviest stocks of goods to be found outside of Denver. Nature has made this the supply point, and no circumstance can thwart its design.

"The Gunnison valley, 30 miles below, is said to have no superior as a farming country. There can be raised all the hay, potatoes, beets, turnips, cabbages, etc., which San Juan will ever require. The mountains around contain plenty of timber to supply us with fuel and lumber until the railroad comes. Within 50 miles, below on the Gunnison river, are large beds of coal of the finest quality, which can then be brought to us at trifling expense.

"Large and important as the business of this section now is, it is bound to increase many thousand fold, and that, too, at no distant day. The Denver, South Park & Pacific Railroad, when completed to Fairplay, will push forward to the Arkansas river, cross the range, come down the Gunnison and up the Lake Fork. The Atchison, Topeka & Santa Fe Railroad will probably be pushed up the Arkansas from Pueblo, go up the left-hand fork of Poncho creek, through Cochetopa Pass, and down the Gunnison, building a branch up the Lake Fork. The Denver & Rio Grande Railroad will reach Fort Garland by May. It will then have a natural road-bed to Clear creek, 25 miles southwest of this place, and will probably push forward rapidly.

"Three railroads, contending for the San Juan trade, will spur each other forward to the greatest measure of activity, and we are justified in hoping that, within two years, the whistle of the iron horse will wake the echoes of these grand old hills, and our town, so fitly named 'The Queen of the Mountains,' be linked with bands of steel to the cities by the sea."

The prosperity of the town is due in a large measure to the *Silver World*, a very able weekly newspaper published by Olney & Peyton. Mr. Henry C. Olney is well known to the citizens of Colorado from his long connection with the *Denver News*.

The town has an excellent graded school, with teachers of established reputation.

The mining section to which the town is tributary is acknowledged by all mining men to have no equal in the world, either in extent or in the great number of large, rich veins.

Dr. F. M. Endlieb, the geologist of the Smithsonian Institute, who has been an extensive traveler in Europe, and is familiar with all the mountain regions of our own country, declares that the scenery of San Juan excels in grandeur and variety any that he has ever seen.

The Henson Creek road, built the past season by Garbutt, Abbott Bros. & Woodward, will be as great an object of interest to the tourist and sight-seer as the justly celebrated Canons of Boulder or Clear creek.

EDITORIAL NOTES.

CIVIL AND MINING ENGINEERS.—The firm of Garbutt, Abbott Bros. & Woodward, civil and mining engineers, chemists and metallurgists, has achieved a reputation in the San Juan country which is justly merited. The members are all men of thorough education for their respective departments, and all bring to their work the advantages of many years of practical experience.

Their chemical and assay laboratory, their outfit of engineering apparatus, and their library in both branches of their profession, have no rival west of the Mississippi. They also have the most complete cabinet of San Juan ores ever collected. In their office the principal papers of New York, Boston, Chicago, Denver and Pueblo are kept on file, and all strangers visiting Lake City for business or pleasure, are invited to make their office headquarters, have mail directed to their care, etc. All letters of inquiry addressed to them will receive prompt attention. See their advertisement.

BANKING.—The Bank of Lake City, the only chartered institution of the kind in San Juan, commenced business during the early part of last year. Capital, \$50,000. The president and business manager, Mr. E. V. B. Hoes, for many years an executive officer in an eastern national bank, has thoroughly identified himself with the interests of the county, and being amply backed by eastern capital, will undoubtedly hold the Bank of Lake City in the front rank in Southern Colorado.

HARDWARE.—R. C. Vose & Co., dealers in all kinds of hardware, are one of the heaviest firms in the southwest. They carry a full line of all kinds of steel and iron-ware required for the complete outfit of mines, from a pick-handle to a car truck. Carpenters and blacksmiths will find here the tools of their respective trades, and as complete an assortment of builders' hardware as they could obtain in Denver. The firm have ample capital, pay cash for their goods, and offer them at eastern prices with freight added.

PHOTOGRAPHY.—T. E. Barnhouse is an accomplished artist in his profession, and has been very successful at Lake City. His studio, built by himself, is thoroughly adapted to his requirements, and should be visited by every traveler to Lake City. They will find Mr. Barnhouse an affable and polite gentleman, and ready to entertain them with his portfolio of stereoscopic views of San Juan scenery, which are well worth a journey of several hundred miles to see. Mr. Barnhouse and his partner, under the firm name of T. E. Barnhouse & Co., carry on an extensive business in jewelry and watch repairing.

PLANING AND SASH MILL.—One of the most successful enterprises in Lake City is that conducted by Echlin, Routt & Co. Their mill is a credit to the town, and a source of handsome profit to themselves. It is fully equipped with all the machinery required by such an establishment in the largest city. The firm are prepared to do scroll-work, wood-turning, planing, matching and re-sawing. They make sash and doors a specialty, and keep a variety of mouldings always on hand.

MANITOU.

This famous resort, known all over this country and Europe, is in El Paso county. Settled in 1872 Daily mail and Express. Daily stages to Colorado Springs; tri-weekly to Fairplay and Alma. Western Union telegraph line. Population, 200. Altitude, 6,250 feet.

Manitou is situated in the beautiful glen, five and one-half miles northwest of Colorado Springs, containing the seven famous mineral springs, "Navajoe," "Manitou," "Comanche," "Shoshone," "Arapahoe," "Misha Tunga," and "Pawnee," all valuable for their curative properties.

Among the many points of attraction in the vicinity are Garden of the Gods, Canon of the Fountain, Chiann Mountain, Glen Eyrie, Rainbow Glen, Ute Pass and Falls, the Grand Pine, Engleman's Canon, and the Beautiful Gate. The ascent of Pike's Peak is made from this point, there being a good road and trail to the summit.

Distance: Colorado Springs, $5\frac{1}{2}$ miles (altitude 5,975 feet); Garden of the Gods, $3\frac{1}{2}$; Glen Eyrie, $4\frac{1}{2}$; Monument Park, $9\frac{1}{2}$; Petrified Forest, 17; Cheyenne Canon, $9\frac{1}{2}$; Falls of the Fountain, 1; Summit of Pike's Peak, air line, 8 (altitude 14,216 feet); Ranch Hotel, Burgen's Park, 19 (altitude, 7,100 feet); Castello's, South Park, 22 (altitude, 8,300 feet).

PUEBLO.

Capital of Pueblo county. Denver & Rio Grande—Atchison, Topeka and Santa Fe Railways. Daily mails and express. Western Union Telegraph Line. Stages to Rosita and Silver Circle. Population, 4,500. The Arkansas River furnishes first-class water-power; and there are few better localities for woolen mills, foundries and machine shops. The various branches of trade are in the hands of active and energetic business men, who are pushing their enterprises in every direction.

The rapid gain in population may be seen from the following: January, 1867, 40; January, 1869, 800; January, 1871, 1,000; January, 1872, 1,500; August, 1872, 2,500; July, 1873, 3,750; January, 1877, 4,500.

The opening of the Atchison, Topeka & Santa Fe Railroad to this point, and the extension of the Denver & Rio Grande to El Moro and La Veta have given a great impulse to trade and public improvements.

Distances: To Denver, 120 miles; Canon City, 40; Colorado Springs, 45; La Junta, 64; West Las Animas, 82; Fort Lyon, 86; Cucharas, 50; Rosita, 45; Fort Garland, 90; El Moro, 85; Del Norte, 175; Trinidad, 90; Cimarron, 165; Fort Union, 205; Las Vegas, 233; Santa Fe, 308; Sangre de Christo mines, 154; Lake City, 212; Kansas City, 634.

SILVER CIRCLE.

New mining camp in Fremont county, near Beulah, once known as Mace's Hole. Among the principal lodes are the Triumph, Harrisburg, Norfleet, Bonanza, Nellie J. Dayton, Little Rhoda, Philadelphia and New Orleans. Owens & McPherson, lumber; Asher House; Capt. Stimson, Deputy U. S. Min. Surveyor. Distances: Rosita, 9 miles; Pueblo, 23.

SILVER PLUME.

Mining town in Clear Creek county, two miles from Georgetown. Population, 250. Silver Plume Concentration Works; capacity, 50 tons per day. Principal mines: Pelican, Dives, Silver Plume, Baxter.

EDITORIAL NOTES.

WM. T. KEIBARD, Esq. the popular druggist, has built up quite a thriving trade. He is a staunch and reliable business man, honorable in his dealings, prompt to wait on customers, and keeps none but the purest drugs and medicines. His stock of paints, oils, and mill chemicals is always complete. He also has choice liquors and cigars, wholesale and retail. And in the stationery department, complete in itself, can always be found a full line of everything pertaining to the trade. Mr. Keibard is receiving what he well deserves, a liberal patronage from Silver Plume and surrounding country.

Free 'Bus and Baggage from all Trains.

TERMS:

\$2.00 TO \$2.50 PER DAY, ACCORDING TO ROOM.

 **Special rates to parties remaining one week or more.**

SOUTH PUEBLO.

A town on the south side of the Arkansas, in Pueblo county. Daily mail and express. Denver & Rio Grand R. R., and terminus of Atchison, Topeka & Santa Fe R. R. Western Union Telegraph line. Population 800. This town was laid out in Nov., 1872, by the Central Colorado Improvement Co. A large trade centers here, extending to the San Juan and Hardscrabble mines, as well as to the rich intervening farm country and settlements. The river at South Pueblo is crossed by three passenger bridges.

The Grand Central is the leading hotel, and one of the best in Colorado. Mr. Strait, the proprietor, is constantly making improvements, that add to the comfort of guests. He is a whole-souled gentleman, and popular with all who have occasion to patronize the house. The table, beds, etc., are excellent, and prices very reasonable. Be sure and go to the Grand Central.

Distances: To Denver, 120 miles; El Moro, 86; La Veta, 73.

SUNSHINE.

Mining town in the eastern limits of Gold Hill mining district, in the foot hills, at an elevation of about 6,700 feet above sea level, six miles from Boulder City. Daily mails, express and stages to Boulder. Population, 800. An excellent newspaper, the *Sunshine Courier*, Bruner & Cairns, publishers, is printed here, and has done much to advertise this rich mining section.

Distances: Boulder, 6 miles; Denver, 40; Gold Hill, 2½; Salina, 1; Jamestown, 8; Caribou, 16; Central City, 35.

EDITORIAL NOTES.

LEADING EASTERN HOUSES.

THE BALTIMORE COPPER WORKS,

Messrs. Pope, Cole & Co., proprietors, are situated at the mouth of the harbor of Baltimore, immediately on the water front; cover a space of seven acres; contain twenty-two reverberatory and blast furnaces and refineries, also large sulphuric acid works. The capacity of the entire works, which is 10,000,000 lbs. refined copper per annum, and silver product in addition, has not been fully tested since the non-importation of foreign ores; the product of domestic ores, that will bear transportation, not being yet sufficient to keep all the furnaces in active operation at all times. Ores bearing silver and copper are successfully treated by us here, and *such material they buy* in quantities, as offered, at full rates, delivered there. A through rate of freight from Denver to Baltimore can be obtained on very moderate terms. Delivery of ore at their works is covered by the through rate of freight, the cars going directly there. The seller has no expense to bear after delivery of ore. * Messrs. Pope, Cole & Co. furnish labor, etc., to weigh and sample, upon which process the seller is desired to attend, either in person or by representative. Our mining companies would do well to make a note of this.

THE OWEN PAPER COMPANY, OF HOUSATONIC, MASS.,

Is one of the oldest and largest institutions of the kind in this country. Their display of papers at the Centennial attracted great attention. Their list of papers is quite large, including writing, bond and note, wedding, etc. The former includes superfine and extra-superfine, in wove and laid, blue and white, high and low finish, flat and folded, ruled and plain, cut and put up in all the weights and sizes in general use. Also, a full line of blank-book papers in all sizes and weights in three different

grades. Of thin linen papers there is a complete line, including copying, blank folio, exchange cap, packet, commercial, letter and note papers, ruled and plain, wove and laid in antique and plate finish. There is also a line of linen bond, bank note and parchment papers, made in five different thicknesses, and eleven sizes of flats, besides folded notes, letters and legal caps. Besides, there are first-quality linen ledger, record and drawing papers from demy to "antiquarian," inclusive; and, finally, there are the wedding royals, comprising some twenty different tints in novel and beautiful designs and a tasty variety of finish. The Owen Company's new first-class linen ledger and pure linen bond and writing papers stand very high among those who make use of that kind of paper. The fancy papers, manufactured under letters patent to Henry D. Cone, manager and sole proprietor of the company, excel in delicacy of tints, elegance of appearance, beauty of finish, and intrinsic excellence. Colorado buyers would do well to send for price-lists and samples of the Owen Paper Company's goods.

CRANE BROTHERS' MANUFACTURING COMPANY.

The gentlemen comprising this company are among the pioneers and heaviest capitalists who invested in the Iron manufacturing business in the northwest. When they first established their business in Chicago, they chose this point, fully believing it would be what it now is, the great distributing point of the "Western World," and their business, from small beginning, has grown to be among the first manufacturing enterprises of the country. They have their business thoroughly systematized, and divided into several different departments: 1st, drafting and patterns; 2d, iron foundry; 3d, malleable foundry and fitting department; 4th, wrought-iron pipe; 5th, brass foundry and fitting department; 6th, radiators, coils and screws, the manufacture of which goods is a specialty; 7th, steam warming and ventilating apparatus; 8th, steam-engines, boilers, passenger and freight elevators, steam pumps and general machinery. The balance of the departments, the general finishing business, etc., that follows this varied amount of manufacturing enterprises, all embraced in one establishment. Every person inter-

ested in the purchase, sale, or use of machinery in Colorado, should make themselves familiar with the superior workmanship, satisfactory prices, and unusual inducements in every way afforded by the Crane Bros.' Manufacturing Co. of Chicago.

AMERICAN TURBINE WATER WHEEL.

The firm of Stout, Mills & Temple, proprietors of the Globe Iron Works, Dayton, Ohio, are the successors of the first foundry and machine shop established in what is now the city of Dayton. The present firm has been organized twenty-three years. Their principal or leading business has been in flour mills, paper mills and saw mills, and a general foundry and machine business; but most prominent among their specialties at present is the manufacture of their celebrated American Turbine Water Wheel and general flour mill machinery, burr-millstones, and general mill furnishing. In this line they have not only a national reputation, but supply foreign countries with their turbine wheels. These turbines are undoubtedly at present, if not the very best extant, are certainly second to none in the market. Colorado millers and others needing machinery of this class should correspond with Messrs. Stout, Mills & Temple, Dayton, Ohio.

POND'S EXTRACT.

Among the many excellent family medicines which have from time to time appeared before the public, there is not one so generally useful, so simple, and so truly curative as Pond's Extract. A glance over the long catalogue of ills and diseases which it is reputed to cure will convince us, if any faith can be placed in human testimony, that this is one of the rarest and most useful medicines, if not the most truly valuable remedy ever made known. For nearly thirty years it has been in extensive use among the people and profession; and though its claims have been a thousand times subjected to searching scrutiny, yet in every instance these claims have been triumphantly vindicated. The people, to whom from long use and experience it has become indispensable, have universally given it their approval; and the medical profession, though generally slow to

admit a new medicine, or to endorse anything but their own practice, have, in thousands of instances, adopted it, and not only use it freely but cheerfully recommend it.

CANNED GOODS.

The Portland Packing Company is the largest packing institution, not only in the country, but in the whole world, operating as they do twenty distinct and separate factories, and putting up in cans many tons of material annually. These factories are mostly situated on the coast of Nova Scotia, more particularly those in which lobsters are canned. Over 100,000 lobsters per day are thus disposed of. The company furnish all the material and essential necessities to the fishermen, who catch the fish in traps set for the purpose; then the company have a number of little yachts, or smacks, which go round and pick up the fish, and carry them to the different packing houses, where they are weighed, boiled and packed the same day. By proceeding thus rapidly to pack while fresh, the lobster retains all its natural delicacy and flavor. The company pack all descriptions of meats, fish, poultry, soups for use on shipboard, corn, etc. The principal articles, however, are lobsters and corn, the amount annually thus put up being over two million cans of lobsters, and of corn from two to two and a half millions, the other goods being very much less in volume. They have as high as 1,700 acres of corn under cultivation, which has to be raised very carefully, and is done successfully only by experts. Everything pertaining to the business is made by the company, including the cans, cases, boilers, etc., and in all the different operations, from the catching of the fish to cultivation of the land for vegetables, manufacturing the cans, and the packing process, fully 4,000 persons are employed. Of the quality of these articles it is unnecessary to speak as only too well known, and the company has received no less than eight medals from different exhibitions, including those last held at Vienna and Philadelphia. Let the tourist go on a pilgrimage to Egypt, and perchance, while slowly pacing along the 700-foot base of the gigantic pyramid of Ghizeh, with eyes upturned towards its lofty altitude, he suddenly stumbles, looks down, and picks up an empty can, labeled

"Star Brand Lobster Portland Packing Company," thus forcibly bringing his mind back to home and less æsthetic subjects. Or let him ascend Mont Blanc, or even nearer home, the heights of the Rockies in the "Far West," and still he may be met with instances of this company's handiwork.

VERONA TOOL WORKS, PITTSBURGH.

The Verona Tool Works, of Pittsburgh, Metcalf, Paul & Co., proprietors, one of the leading establishments of the greatest of manufacturing cities, call attention in the DIRECTORY to their superior solid-eye solid steel picks, made in their own improved dies and machinery, and guaranteed to be the *best pick ever made*, at a price not much greater than a first-class iron pick, and FAR cheaper in the end. This firm have an extensive and growing trade throughout the West; and their goods sold in Colorado have proved all that has been claimed for them, and have a high reputation throughout the Far West as to durability and quality. Our miners, smiths and others requiring picks, tools, sledges, etc., would do well to send for circulars and price-lists. They have got up new machinery for making their solid steel picks, which will improve the quality and reduce the price.

ST. LOUIS LEAD AND OIL COMPANY.

This is one of the oldest and most extensive works in the West, and holds an immense trade built up by the superiority of its goods. J. Durbin, Esq., the Denver druggist, is their agent in Colorado.

SLIGO IRON STORE COMPANY, ST. LOUIS.

The Sligo Iron Works, of St. Louis, have for years held a large trade throughout the West, and have probably supplied to Colorado more iron, steel, and specialties in their line, than any other house. They have lately increased their facilities, having organized under the name of the Sligo Iron Store Company; and, besides being manufacturers' agents and wholesale dealers in the best brands of merchant iron, steel, etc., keep in stock the largest variety of wagon and plow wood-work, and carriage material and trimmings. George D. Hall, who established the

Sligo Iron House, becomes president and active manager of the new company. His frequent visits to Colorado have given him large acquaintance and popularity among our dealers, and secured a good trade, which we doubt not will be largely increased during the present year.

BLAKE CRUSHER COMPANY.

The Blake Crusher Company, of New Haven, Conn., are patentees and manufacturers of the celebrated Blake Stone and Ore Crusher, which is in use all over the country. They have supplied large numbers of these crushers to all the mining districts in the various States and Territories from Colorado to California. They give universal satisfaction, and are, in fact, of such high repute that various infringements have been detected and prosecuted, and the Blake patent has been fully sustained by repeated decisions of the Courts. The Blake crushers are in use at all the leading reduction and sampling works at Central, Georgetown, San Juan, Gold Hill, and various other points in the mining districts of Colorado. They have received the highest endorsement from all parts of the country, and win gold medals wherever exhibited. A more valuable machine has never probably been invented in this country. It is simple in its construction, strong in its build, not liable to derangement, and combines a maximum of durability and efficiency with low cost and great utility.

GEORGE BOHNER & CO., CHICAGO.

This firm are among the leading jobbers of lamps, chandeliers, kerosene goods and glassware in the West. They also carry a large stock of fruit jars, flasks, brackets, etc., and are manufacturers of the celebrated "Bohner's Patent Extension Library Lamp," which is shown in the cut accompanying their advertisement, on another page. We have used this lamp, and give it our unqualified endorsement as a neat, cheap, pleasant and durable hanging lamp, suited to the library, dining room, hall, or in fact to any part of the house. Large numbers are in use in Colorado.

HALLOCK, HOLMES & CO., CHICAGO.

In directing attention to the advertisement of this house, found on the first page of the DIRECTORY, it is sufficient to say that it has for years had a large and growing trade in Colorado, as indeed throughout the New West to the Pacific coast. The gentlemen comprising the firm take pride in maintaining the superiority of goods in the various lines for which this house has been so long and so justly celebrated.

GILBERT, HUBBARD & CO., CHICAGO.

No house is better known throughout this section of country than that of Messrs. Gilbert, Hubbard & Co., whose advertisement may be found next to the title page. They have built up a large trade in Colorado, in their goods, and always give satisfaction. Those who have lately started in business in the various new towns of the New West, and have not already favored this firm with their orders, would do well to give them a trial.

E. B. BENJAMIN, NEW YORK.

The attention of mining companies, and others interested, is called to the advertisement of E. B. Benjamin, New York, found on another page. He is importer and manufacturer of all kinds of apparatus for mineral and chemical analysis, assayers' tools, mining implements, crucibles, etc. He has supplied considerable quantities of goods in his line to Colorado, and they have been found of the very best quality. All engaged in mining, smelting, or in the treatment of ores in any way, will do well to send to Mr. Benjamin for his large illustrated catalogue, which gives descriptions and price-list of his various kinds of apparatus.

CHICAGO SHOT TOWER COMPANY.

The advertisement of this extensive and well-known establishment appears in the front part of the DIRECTORY. Its goods have been in use throughout the West and New West for years; and, owing to their superiority, have monopolized pretty much all the trade in that line, particularly in the new states and territories.

GEO. M. MOWBRAY, NORTH ADAMS, MASS.

The use of nitro-glycerin is becoming more and more a popular and successful agent in mining, and has worked wonders. It is the most powerful explosive known. Geo. M. Mowbray, Esq., of North Adams, Mass., owner of the Tri-Nitro-Glycerin Works, has a page advertisement in the DIRECTORY, which our mine owners would do well to consult. The nitro-glycerin manufactured at these works obtained two medals and two diplomas of merit at the Centennial, Mr. Mowbray being the only explosive manufacturer whose products were deemed deserving any recognition. He also supplies mica blasting powder, and Mowbray's "powder keg" battery, for simultaneously firing a series of mines or drilled holes. These new explosives give a saving of 30 to 60 per cent., and convert a tedious, expensive mining operation into a prompt success, making the progress in a single month that would take powder six months to accomplish. The Sutro Tunnel Co., and Gold Hill Mining Co., of Nevada, are using these materials largely, and give them very high recommendation. Send for price lists and descriptive pamphlet. It would be the best thing that could happen to Colorado mining interests to have Mowbray's explosives largely introduced.

BANKING.

No banking house is better known in the West, or has higher repute throughout the country, than that of Gilman, Son & Co., New York. Several of the prominent banks of Colorado keep their Eastern deposits there, and our mining capitalists and stock men have large dealings with them. They pay particular attention to Western business; and financial institutions or individuals needing banking facilities in New York can intrust their favors to no safer or better hands.

UNION HORSE NAIL COMPANY.

The Union Horse Nail Company, of Chicago, are manufacturers of the "Star" nails, a brand that has been introduced in Colorado, and met with a very large sale in a short time, owing to merit and superiority. We have seen voluntary cards from

some of our leading hardware and livery men, giving very high praise and preference to these nails. They are worthy a more extensive introduction in all the new regions of the Far West, and we look for an immense sale of the "Star" brand in these markets.

M. C. BIGNALL & CO., ST. LOUIS.

This firm, whose advertisement may be found on another page, manufactures pumps, pipe and fittings, brass goods, hose, belting, plumbers' goods, etc. Their goods have had considerable sale in the markets of Colorado, and give great satisfaction. Buyers would do well to send for their price lists and descriptive catalogues. Being a large and extensive house, their various specialties are always kept on hand, in immense stock and variety.

THE WHITNEY SEWING MACHINE.

The Improved Whitney Sewing Machine, which is advertised elsewhere, has taken a number of premiums as the *cheapest* and *best*. It has been pronounced equal to the Singer, or any other of the high-priced machines, while being sold at a much less price. It is an outgrowth of the Weed machine, being greatly improved, and having also Mr. Whitney's valuable new invention incorporated into its structure. It is a perfected shuttle lock-stitch machine, which is the only reliable stitch, and for strength and firmness cannot be equaled. It is constructed upon sound and well-tested mechanical principles. The workmanship is of the highest character. All working parts are hardened or made of the best quality of steel. The machine is warranted, and claims to be the lightest and smoothest running, most beautiful in design and finish, the least complicated, most perfectly adjusted and easily operated shuttle sewing machine known in the market. It is remarkable, not only for the quality of its work, but also for the variety and wide range of goods which it will sew with equal facility and perfection, whether using silk, twist, linen or cotton threads, be they coarse or fine. It has especial claims to the patronage of "Grangers," being the only company that offer their machine to this order at a *discount of fifty per cent.*

CHAPTER XXII

THE first thing I noticed when I stepped out of the car was a warm, sun-drenched breeze. The air smelled of salt and sand, and the sound of waves crashing against the shore was a constant, soothing rhythm. I took a deep breath, feeling the sun on my face and the sand under my feet. It was a perfect moment, a perfect place.

I walked along the beach, my feet sinking into the soft, golden sand. The waves were gentle, lapping at the shore with a soft, white foam. I looked out at the horizon, where the sea met the sky in a hazy, blue line. The sun was high in the sky, casting a warm glow over everything. I felt a sense of peace and tranquility, a sense of being alone in a beautiful world.

The sand was warm and soft, and the waves were gentle and soothing. I walked along the beach, my feet sinking into the sand. The sun was high in the sky, casting a warm glow over everything. I felt a sense of peace and tranquility, a sense of being alone in a beautiful world. The waves were gentle, lapping at the shore with a soft, white foam. I looked out at the horizon, where the sea met the sky in a hazy, blue line. The sun was high in the sky, casting a warm glow over everything. I felt a sense of peace and tranquility, a sense of being alone in a beautiful world.

THE PRESS.

"NEW YORK WORLD."

The *World* is one of the greatest of American newspapers. None excel it in enterprise. It is always newsy; fearless, yet liberal in spirit; and fair in its treatment of all public questions. It is the cheapest of the big New York dailies, and (since it is second to none of them in ability) this becomes an important consideration to all subscribing for a daily (or weekly) paper in these hard times. See their advertisement of terms, etc., elsewhere.

"CINCINNATI TIMES."

No paper in the west has larger circulation or influence than the *Cincinnati Times*. It is a live, progressive paper, has special news correspondence from every State and Territory. In calling attention to the advertisement, found elsewhere, we would remind Coloradans that the *Weekly Times*, which so many of them have read for years, has renewed and special attractions for 1877.

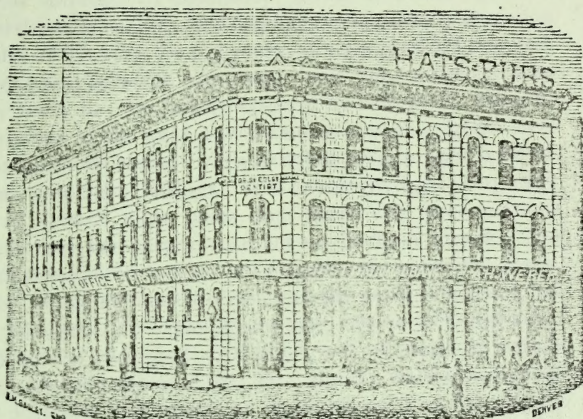

ENGINEERING AND MINING JOURNAL.

This is the standard American journal in its special departments, and has large circulation and influence. In calling attention to the advertisement on another page, we can recommend the paper to miners, mining companies and others, as thoroughly reliable, and the best.

WEBSTER'S UNABRIDGED.

No public or private library is complete without the latest illustrated edition of Webster's Dictionary. This is the only dictionary that has universal use; and is the standard everywhere. In getting a work of the kind, everybody, of course, gets "the best."

DENVER ENTERPRISE.

FIRST NATIONAL BANK OF DENVER—THE GREAT FINANCIAL INSTITUTION OF THE FAR WEST.

The First National Bank of Denver was organized in the year 1865, with a capital stock of \$200,000. It announced its mission and intent at that date in the following words: "Organized under an act of Congress to provide a national currency, we propose to make this one of the permanent institutions of Colorado." The solidity of its growth, the liberal spirit of its management, and the magnitude and extent of its operations, have since then more than justified the anticipations of its founders and the expectations of the public.

The career of this bank has been one of unvarying and honorable success. Its last (December) statement indicates a soundness and prosperity of which it has just cause to be proud, its loans and discounts amounting to \$626,207.16; surplus funds and other undivided profits over \$150,000; while the deposits aggregated nearly three-quarters of a million of dollars. Hon. Jerome B. Chaffee, U. S. Senator from Colorado, was the founder of the First National Bank, and is its president. He is a man of great wealth and influence, generous and deservedly

popular, and has done more than any other man to forward all the material interests of Colorado. David H. Moffat, Jr., has held the position of cashier, and has had the immediate direction of the affairs of the bank for ten years, and his splendid business qualifications and personal popularity have done much to make the bank what it is. He is ably assisted by George W. Kassler.

No institution in the west now occupies a more eligible location or commodious rooms. The banking room proper is 60x30 feet in size, with lofty ceilings. It is cheerfully lighted by large windows of French plate glass, and there are three pairs of doors, including the corner entrance on Larimer street. The wood-work throughout is plain but elegant; the counters, desks, panels, etc., being of black walnut, and the panels veneered and superbly finished. The rear apartment, 18x20 feet—carpeted in body Brussels, furnished with black walnut chairs in leather mountings, lounges, tables, desks, etc., and the walls ornamented with fine portraits and paintings in oil—is used as the private office of the president and cashier.

THE EXCHANGE BANK.

This bank is under splendid management, as was proved by its last annual statement, which was backed up by a dividend of ten per cent. The directory are men of high standing and wealth, well known throughout Colorado; while among the stockholders are not only several of the leading citizens of Denver, but some prominent Eastern gentlemen, among whom we may mention: Jos. Patterson, president of the Western National Bank of Philadelphia; Samuel H. Walley, president of the National Revere Bank of Boston; R. E. Demmon, president of the Howard National Bank of Boston; A. H. Barney, president of the U. S. Express Company, and director of Wells, Fargo & Co., New York; the Rollinsford Savings Bank, of Salmon Falls, New Hampshire; the Somersworth Savings Bank, at Great Falls, New Hampshire; ex-Gov. Frederick Smyth, of Manchester, N. H.; Robert Buell, of Hartford, Conn. The prominent success of the Exchange Bank is due largely to the good financiering of its popular cashier and active manager, S. G. Collins, Esq.

THE WHOLESALE GROCERY TRADE.

There are very few residents of the Far West who have not heard of J. S. Brown & Bro., Denver; and very few dealers in their line of goods who do not buy of them. This house was established in 1862, and from a small business has worked into a trade of over \$1,000,000 per year, with a continual increase. Their goods go into all parts of Colorado, New Mexico and Wyoming, including a fine trade in the Black Hills and San Juan regions. The large scale on which they do business may be seen from the fact that their receipts of goods will average three car loads per day the year round. In connection with J. W. Richards, they also carry on the largest grain business of any house in Colorado. No firm in the West has a better record for enterprise and sound standing than J. S. Brown & Bro. The senior member is also president of the City National Bank of Denver, and prominent in all important public enterprises.

THE DRUG TRADE.

The wholesale and retail drug house of J. Durbin, Denver, is one of the largest in the West, enjoying a very extensive and growing trade, which reaches from the Black Hills on the north to Santa Fe on the south, and extends to every section and every city of our own state. Mr. Durbin has been in the drug business many years, and understands it thoroughly in all its branches. To the usual stock of a druggist is added a full line of dental goods, garden seeds, perfumeries and fancy articles. He also keeps a complete supply of assaying implements and materials for the miner's trade; is the representative for Utah, Wyoming, Colorado and New Mexico of J. C. Ayer, of Massachusetts; is the sole dealer for the state in Thomas Wightman's celebrated window glass; is the sole agent in Colorado for Park, Davis & Co.'s fluid extract of pills and elixirs, and is the advertised agent for the St. Louis Lead and Oil Company, one of the largest and best companies in the West, which is advertised on another page, and which has a very heavy sale of its class of goods throughout the West.

DENVER FOUNDRY AND MACHINE SHOPS.

These are the largest works of the kind west of the Missouri river. They are equipped with tools and machinery of the largest and best character, among which are a large boring and turning mill, a heavy lathe capable of turning locomotive drivers, a special lathe to turn shafting, a shaping machine for fitting keys, brasses and other work of like character. These works make engines, boilers, stamp mills, patterns, pulleys, etc., etc. Among the many engines they have supplied to all portions of the western country, we may mention those running stamp-mills in Ward district, California Gulch, and at points in the Sunshine and San Juan country. The engines at the Denver Gas Works and Denver Brewing Company's Works were made at this foundry. Mining machinery of all classes is turned out to order promptly. Cameron steam pumps, Blakeslee jet pumps, wire rope, Ames' engines, and other machinery, are kept in stock.

ROUTES OF TRAVEL.

The travel to Colorado will be greater than ever this year. Everybody will want to know the best routes. The pleasure of a trip depends largely on the speed, safety and comforts of the route traveled.

ATCHISON, TOPEKA & SANTA FE.

The new route via Denver & Rio Grande and Atchison, Topeka & Santa Fe lines has unusual claims to the patronage of Colorado people and those coming to this State. They were the first to put freights and fares to and from eastern points down to reasonable figures. The road-bed is superior, and provided with the continuous rail, and all through trains have elegant new Pullman sleeping and dining cars, especially built for this line, and such as no other railroad crossing the plains can boast of. They make as quick time to Kansas City as any competing

line, and make the same connections in Union Depots at Kansas City and Atchison. In winter the trains on the A., T. & S. F. are scarcely ever delayed by storms when other lines are so effectually blocked up. The tourists and San Juan travel will hit it right by taking the "Banana" line.

CHICAGO & DENVER SHORT LINE.

The Chicago & Alton Railway Company, operating the best lines of railway in the West, always has been popular with travelers. We have on several occasions journeyed over this line, and can testify to the smoothness and solidity of its road-bed, the comfort of its reclining chairs by day, the sumptuous elegance of its Pullman contrivances to render a night's rest refreshing and blessed, and its princely restaurants on wheels, which are called dining cars. The man or family who has once tested, by actual experience, the numberless accommodations provided by this line, and realized its many advantages in safety, quick speed, prompt connections, directness of route, etc., will ever after be its steadfast friend and persistent patron. Frank G. High, Esq., the western agent, has done much to make this line popular out this way, and it is owing to his influence that it takes so large a share of the Colorado travel.

ST. LOUIS, IRON MOUNTAIN & SOUTHERN RAILWAY.

The St. Louis, Iron Mountain & Southern Railway, with its branches, constitutes one of the most important arteries for travel and trade in the Union. By its efficacious through connections east, southeast south and southwest, it secures the most direct, and often the only eligible through route to all points in those directions. Amongst the latter is that to Jacksonville, Florida. To this elegant winter resort, now so much in vogue, Pullman palace cars are run through on certain days of the week without any change whatever. Colorado people going south, and Southern people taking a trip to the Rocky Mountains, should take this route, through St. Louis. It is a finely equipped road, makes good time and connections, and affords excellent accommodations.

MISSOURI PACIFIC.

Colorado people in going to St. Louis, or points south and east, generally take the Missouri Pacific at Kansas City. It is a well-managed and popular route, having elegant coaches, first-class dining stations along the way, and is always on time.

HANNIBAL & ST. JOE.

The old Hannibal & St. Joe line has always been a favorite with the traveling public. It makes close connections and quick time between Kansas City and Chicago, running through without change, and is provided with elegant Pullman sleepers and handsome day coaches. The motive-power is superior, consisting of 80 locomotives, all the first-class ones being of the same dimensions and uniform construction and parts; and the car equipment amounts to about five cars per mile for the whole 300 miles of the company's lines. When you go east ask for tickets via the "Old Reliable" Hannibal & St. Joe line.

CHICAGO, BURLINGTON & QUINCY.

The Chicago, Burlington & Quincy, which in connection with the Hannibal & St. Joe forms the favorite Kansas City and Chicago through line, in the long-conceded superiority of its track and equipments, the integrity of its management, and the uniform reliability and proverbial safety and dispatch with which it makes through time and connections, is the veritable king bee among western railways. The elegance of its sleeping cars, and the enjoyable luxury of its day coaches, divests travel of fatigue, making it at once a comfort and a pleasure.

BALTIMORE & OHIO.

This is one of the greatest of American railways. It is, of course, the favorite with merchants and others going east, and the brisk competition of other lines only serves to render its merits, by contrast, all the more conspicuous. The tables of dining stations *en route* are sumptuously provided with all that can refresh and gratify the inner man. The scenery without

possesses every charm of variety, ranging from mountain grandeur to lovely landscape. The sleeping car accessories of this line are simply superb, and its entire equipment is unrivaled.

KANSAS PACIFIC.

This road is the "pioneer" line in Colorado, and has, from the time of its opening to Denver, in 1870, done pretty much all our passenger and freight business. Its officers have taken pains to look into the wants of their Colorado business, have personal acquaintance with large numbers of our citizens, and are prompt to afford all the accommodations possible to our various interests. The present management is popular, which is an important item in securing and holding business when there is "another Richmond in the field."

CHICAGO, ROCK ISLAND & PACIFIC.

Since this line opened to Leavenworth, and secured close connections with the Kansas Pacific by the Lawrence "cut-off," a good deal of travel to and from Colorado is seeking that route. The road is under excellent management, has luxuriant day-coaches and Pullman sleepers, passes through attractive portions of Missouri, Iowa and Illinois, with no changes of cars, and at Chicago has connections, in Union Depot, with the best Eastern lines. The fare by this route to all Eastern points is at the lowest rate adopted by any line, and with such ample accommodations it is deserving of a good share of the Colorado business. A. M. Smith, general passenger agent, Chicago, will furnish maps, circulars and other documents of interest to travelers.

ST. LOUIS, KANSAS CITY & NORTHERN.

This is one of the few strictly first-class railroads west of the Mississippi. It is very popular with travelers, and has a good share of the Colorado passenger, freight and live-stock business. Its managers take pains to look after the wants of their patrons, and have obtained a good hold on this Far-West business by coming out here and making the acquaintance of the people. The passenger and freight departments are frequently repre-

the author's own words, "the book is a study of the history of the world, from the beginning of time to the present day, and is a most interesting and instructive work."

THE HISTORY OF THE WORLD

This book is a study of the history of the world, from the beginning of time to the present day, and is a most interesting and instructive work. The author, who is a distinguished historian, has written this book in a clear and concise manner, and has included a large amount of interesting and important information. The book is divided into two main parts, the first of which deals with the history of the world from the beginning of time to the present day, and the second of which deals with the history of the world from the present day to the future. The first part is divided into three main sections, the first of which deals with the history of the world from the beginning of time to the present day, the second of which deals with the history of the world from the present day to the future, and the third of which deals with the history of the world from the future to the present day. The second part is divided into two main sections, the first of which deals with the history of the world from the present day to the future, and the second of which deals with the history of the world from the future to the present day. The book is a most interesting and instructive work, and is a must-read for anyone who is interested in the history of the world.

sented in Denver, and in the other growing towns, by their live and enterprising managers, who take in a good deal of patronage for their line. Travelers may be assured they have "about the right ticket" when they call for documents via the "St. Louis, Kansas City & Northern."

SIoux CITY & PACIFIC.

There will be a big Black Hills emigration the coming season, and the best route thither is via Council Bluffs and Sioux City, or Wisner, the present northwestern terminus of the Sioux City & Pacific Railroad. This line has provided special accommodations for this business, and has close connections by rail, steamboat and stage lines. Write to F. C. Hills, general freight and ticket agent, Sioux City, Iowa, for time schedules, rates and other information.

CENTRAL RAILROAD OF IOWA.

This is the favorite route to all points in central Iowa, and has the best of connections as a through line between Kansas City, or St. Louis, and St. Paul. It is also a good route for passengers from Colorado going via Omaha to any portion of Northern Iowa or Minnesota. It is a carefully-managed road, free from accidents, affording good accommodations in every respect, and worthy of liberal patronage.

POND'S EXTRACT!

The People's Remedy! The Universal Pain Extractor!!

Note: Ask for POND'S EXTRACT. Take no other.

"HEAR, FOR I WILL SPEAK OF EXCELLENT THINGS."

POND'S EXTRACT—the great VEGETABLE PAIN DESTROYER, has been in use over THIRTY YEARS, and for cleanliness and prompt curative virtues cannot be excelled.

NO FAMILY can afford to be without POND'S EXTRACT. ACCIDENTS, BRUISES, CONTUSIONS, CUTS, SPRAINS, are relieved almost instantly by external application. Promptly relieves pains of BURNS, SCALDS, EXCORIATIONS, CHAFINGS, OLD SORES, BOILS, FELONS, CORNS, etc. Arrests inflammation, reduces swellings, stops bleeding, removes discoloration, and heals rapidly.

PHYSICIANS of all schools, who are acquainted with POND'S EXTRACT OF WITCH HAZEL, recommend it in their practice. We have letters of commendation from hundreds of Physicians, many of whom order it for use in their own practice. In addition to the foregoing, they order its use for SWELLINGS of all kinds, QUINCY, SORE THROAT, INFLAMED TONSILS, simple and chronic DIARRHŒA, CATARRH (for which it is a *specific*), CHILBLAINS, FROSTED FEET, STINGS OF INSECTS, MOSQUITOES, etc. CHAPPED HANDS, FACE, and indeed all manner of Skin diseases.

TO FARMERS—Pond's Extract. No Stock Breeder, no Livery Man can afford to be without it. It is used by all the leading livery stables, street railroads and first horsemen in New York City. It has no equal for Sprains, Harness or Saddle Chafings, Stiffness, Scratches, Swellings, Cuts, Lacerations, Bleedings, Pneumonia, Colic, Diarrhœa, Chills, Colds, etc. Its range of action is wide, and the relief it affords is so prompt that it is invaluable in every farm-yard, as well as in every farm house. Let it be tried once, and you will never be without it.

CAUTION.—POND'S EXTRACT has been imitated. The genuine article has the words "**Pond's Extract**" blown in each bottle. It is prepared by the *only persons living* who ever knew how to prepare it properly. Refuse all other preparations of Witch Hazel. This is the only article used by Physicians, and in the hospitals of this country and Europe.
